

***One step to heaven***

Break my heart, break my nose  
I'm still one step from heaven  
You treat me bad with those painfull blows  
And I'm still one step from heaven

One step from heaven  
One step away  
One step from heaven  
Getting nearer every day

No-one can give you back your mothers arms  
No-one can leave you like a wife  
Sticks and stones may break my bones  
But words, they cut me like a knife

One step from heaven...

Black dog, hounding me  
Go find yourself a tree.

One step from heaven....

You say it's black when I know it's white  
You say I'm wrong when I know I'm right

One step from heaven  
Just one step away  
One step from heaven  
Getting nearer every day
