

## Happy Place

Bad news every day now  
 Worse in every way now  
 Someone has to pay now  
 But I don't need to worry  
 I'm going to my happy place

The world has gone to seed now  
 The lying and the greed now  
 They cut you till you bleed now  
 But I don't need to worry  
 I'm going to my happy place

You can come and join me  
 There is no charge its all free  
 Its really not that hard  
 Don't need no credit card  
 Just to be

So don't you worry  
 Just leave that old rat race  
 And go and find your happy place

No need for politicians  
 No rules and no conditions  
 No marches or petitions  
 I don't need to worry  
 I'm going to my happy place

I don't pay no tax there  
 I paper over cracked there  
 Ignoring all the facts there  
 I don't need to worry  
 I'm going to my happy place

I can mess about there  
 I can scream and shout there  
 I can keep you out there  
 I don't need to worry  
 I'm going to my happy place

I can have some fun there  
 Look after number one there  
 I keep a loaded gun there  
 I don't need to worry  
 I'm going to my happy place

You can come and join me  
 There is no charge its all free  
 Its really not that hard  
 Don't need no credit card  
 Just to be

So don't you worry  
 Just leave that human race  
 And go and find your happy place

Sometimes my mind  
 wanders off to a  
 happy place where  
 I'm allowed to  
 punch people in  
 the throat and  
 there are cute  
 puppies and free  
 candy!
